

Tracheostomy Masterclass

10 January 2020

Venue: Royal College of Anaesthetists, London

Clinical Content Leads: Dr Lynne Barrass and Dr Helen Drewery

Combining small group discussions, skill stations and simulation scenarios, this masterclass brings together a multidisciplinary faculty, including anaesthetists, ENT surgeons, speech therapists and physiotherapists, to address the major issues from tracheostomy insertion to decannulation.

The course will assist you in troubleshooting issues before a critical emergency develops.

Suitable for anaesthetic consultants and ST3+ trainees.
