

## Final FRCA Online Revision Course

6 July – 25 September 2020

**Clinical Content Lead:** Dr Alex Goodwin

**Trainee Liaisons:** Dr Laura Elgie and Dr Jenny Abthorpe

If you are planning to sit the Final FRCA Written examination in the near future, then this online revision course will give you access to material previously only available on our face-to-face revision courses.

Lectures from specialist consultants will provide you with a better understanding of the Final FRCA curriculum, in particular key areas known for their difficulty, and will support your exam preparation.

The online portal will include:

- Access to video recordings of lectures from the January 2020 Final FRCA Revision Course
- New video content specifically recorded for this online course by our regular course lecturers
- Links to download the corresponding slide sets for each lecture, plus further reading recommendations
- Interactive MTF and SBA MCQ practice papers
- Example CRQ papers
- Access to an online network forum enabling you to connect and engage with fellow attendees
- Flexible access to all content from 6 July through to the September Final FRCA Written examinations.
