

Royal College of Anaesthetists

Primary FRCA On-line Revision Course

MCQ exams available from 15 June 2020

Video Lectures available from 1 July 2020

Registration: £50.00

Clinical Content Leads: Dr Ed Hammond and Dr Steve Boumphrey

Due to the ongoing COVID-19 crisis we have developed an online revision course in place of the normal revision course run at the College in January and June each year. We are confident that it will support your preparation for the exam.

This on-line course is aimed at those studying for the Primary FRCA examination and will cover key areas that have proved difficult for past examination candidates.

The digital course will consist of:

Phase 1: Available from 15 June

- Introductory Lecture by Dr Ed Hammond
- 13 MCQ Exams, each with 20 MTF questions, to be completed on-line prior to lectures being made available
- Access to further supporting materials and reading lists

The on-line MCQ Exams will be available from 15-30 June. They can be taken at anytime and in any order and we recommend that you treat them as mock exams so no cheating! Candidates should complete these during this period after which we will produce ranked score sheets by reference to your candidate number for each paper so that you can compare your performance against that of your colleagues.

Phase 2: Available from 1 July

- Video lectures broken down into bite sized topics
- Powerpoint presentations from all lectures covered on the course
- SBA sessions with Dr Hammond and Dr Boumphrey
- MCQ exams with answers and notes available on e-LA
- Chat room for discussion between trainees
- The opportunity to send in questions to lecturers and receive feedback
- Access to all lectures and learning materials up to the September 2020 exam

This course is primarily aimed at candidates who plan to sit the 28 August 2020 MCQ examination, but all trainees are welcome to access the course.

Primary FRCA On-line Revision Course Programme

**15 June –
30 June 2020**

Phase 1: MCQs

There are 13 MCQ test papers available on survey monkey which should be completed by **1700** on **30 June** when the papers will close and ranking will take place

**From:
1 July 2020**

Phase 2: Video lectures

For ease of access topics will be broken down in shorter bite sized video lectures which you can access in whatever order you wish for the duration of the course.
