

Anaesthetists as Educators: Simulation Unplugged

Wednesday, 7 October 2020

Venue: Online

Registration: £170 (£130 for registered anaesthetists-in-training)

Clinical Content Leads: Dr Alistair Hellewell and Dr Alistair May

Due to the ongoing COVID-19 crisis, we have developed an online version of our Simulation Unplugged course, which will equip you with the necessary knowledge and skills to begin to develop as a simulation-based educator. The original content of the course remains unchanged. The course debunks simulation myths and gets back to the nuts and bolts of what you and your learners need.

Develop your skills in simulation-based training on our AaE: Simulation Unplugged course, and gain practical ideas you can put into practice in your own workplace.

Topics covered:

- application of educational theory to simulation practice.
- spectrum and scope of simulation.
- range and appropriate level of fidelity.
- techniques and requirements for effective simulation.
- resources required for a successful simulation project.

Suitable for **all** anaesthetists with an interest in simulation.

Anaesthetists as Educators: Simulation Unplugged

Wednesday, 7 October 2020

09:15–09:30	Welcome and introduction
09:30–10:15	Pitching and group allocations
10:15–11:15	Part 1: Learning objectives and constructive alignment
11:15–11:30	Break
11:30–12:30	Part 2: Spectrum of simulation and fidelity
12:30–13:15	Lunch
13:15–14:15	Part 3: Interaction with learners
14:15–14:30	Break
14:30–15:30	Part 4: Resources
15:30–16:45	Part 5: A worked example
16:45–17:15	Part 6: Relationships to 'high fidelity'
17:15	Close

Event faculty

- Dr Alistair Hellewell
- Dr Alistair May
- Dr Simon Edgar
