

Returning to Work in Anaesthesia

Thursday 29 April 2021

5 CPD credits
anticipated

Clinical Content Leads: Dr Jill Horn, Dr Karen Kidner, RTW online course working group

This new online course aims to build confidence and provide the strategies for managing an effective return to work.

Supportive and experienced faculty will guide you through a series of small group workshops. Wellbeing and organisational aspects will be covered in the morning session, while in the afternoon case-based discussion will help to refresh your clinical knowledge and skills.

This course has limited spaces to provide maximum benefit.

The programme for this course has been designed by the Return to Work online course working group.
