

Anaesthetists as Educators: Anaesthetists' Non-Technical Skills

Tuesday 11 May 2021

Venue: Online, Zoom

Registration: £170 (£130 for registered anaesthetists-in-training)

Clinical Content Leads: Dr Pam Milligan

Due to the ongoing COVID-19 crisis, we have developed an online version of our Anaesthetists' Non-Technical Skills (ANTS) course, which will allow attendees to recognise and assess non-technical behaviours and actions, in themselves and others. The educational content of the course remains unchanged.

This one-day course is designed for anaesthetic trainees and consultants who wish to enhance their understanding of human factors and non-technical skills as applied to anaesthesia. It is also aimed at anaesthetists in a clinical or educational supervisor role who wish to become more familiar with using ANTS for observation and feedback for trainees.

The faculty will record their lectures for you to view, at your own convenience, prior to attending the course. These will comprise of x6 lectures which will be available 2 weeks before the event. **You are required to view them all before the event date.** On the event day the programme will be split between live recaps and Q&A for the pre-recorded material, and breakout groups for group discussion.
