

Safer Anaesthesia From Education (SAFE)

Safer Anaesthesia From Education (SAFE) is a joint project developed in 2011 by the Association and the WFSA (World Federation of Societies of Anaesthesiologists). The training initiative aims to bring practitioners of obstetric and paediatric anaesthesia (who throughout the world may be physician anaesthesiologists but are largely non-physicians) to a level of practice whereby they can deliver vigilant, competent, and safe anaesthesia.
