

## Airway Workshop – virtual tips and technique

Thursday 16 September 2021

---

### **Clinical Content Lead:** Dr Ravi Bhagath

Combining technique masterclass videos alongside lectures and discussion with airway experts, our online Airway Workshops will provide you with the opportunity to enhance your core technical and non-technical knowledge and skills in a virtual setting. An expert faculty will provide technique masterclasses on:

- flexible bronchoscopy
- awake tracheal intubation
- supraglottic airway devices / Aintree Intubating Catheter technique
- front-of-neck access.

Other topics include:

- airway guidelines
- human factors and ergonomics in airway management.
