

## Anaesthetists can be found...

- on the wards assessing patients' suitability for anaesthesia and surgery
- as perioperative physicians, leading the care of high-risk patients
- in pre-assessment clinics, helping to optimise patients for surgery
- undertaking general and regional anaesthesia in operating theatres
- providing pain relief during labour and obstetric anaesthesia
- running high dependency and intensive care units
- leading acute and chronic pain management
- leading and working with retrieval services and trauma teams in a pre-hospital setting
- managing trauma and life-threatening disease throughout the hospital
- being an important team member in the resuscitation of unwell patients
- teaching the future generations of healthcare.

If you want to discuss further the merits of an exciting and rewarding career in anaesthesia, please speak to the College tutor in the anaesthetic department of your local hospital, or contact the training department at the Royal College of Anaesthetists:
