

# Giving Anaesthesia Safely Again

## Return to Work Simulation Course

Friday 14 January 2022

**Venue:** Bradford Royal Infirmary

**Clinical Content Lead:** Dr Jill Horn, Consultant Anaesthetist, Bradford Teaching Hospitals NHS Foundation Trust

**Faculty:** Dr Remi Akerele, Dr Dawn Fabbroni, Dr Caz Farrow, Dr Fozia Hayat, Dr Maria Garside, Dr Sophie Lawton, Dr Phil Lucas, Mr Andy Sykes

**Returning to work in anaesthetics after a period of time away, for example maternity leave, research or experience in a different specialty, can be daunting.**

If you have had a break of three months to two years, the GASagain course is designed to build confidence and is structured to provide you with the strategies for managing a return to work. You will practice both common and unusual clinical scenarios in the simulator to refresh your skills and participate in a series of workshops, underpinned by short relevant lectures, to review key areas and update you on the latest in the world of anaesthesia.

The course is delivered in a supportive environment and complements keep in touch days or workplace support.

The course has limited spaces to provide individual attention.

*We are doing everything possible to maintain everyone's safety, please visit Bradford Teaching Hospitals education website for all COVID-19 SOP's and guidance*
