

Attendance at anaesthetic novice course

Created: 8th February 2023

Title

Attendance at anaesthetic novice course

Activity Type

Educational courses / conferences / events

Start Date

25 August 2021

Details

- 2nd day of anaesthetic novice course
- Included lectures on Neuromuscular blockade and monitoring, pharmacology of opiates, antiemetics and PONV, sympathomimetics and inotropes
- Simulation of laryngospasm occurring during I&D of an abscess

Milestone (optional)

Code	Description
IAC_CR_01	Critical incident training

Key Capabilities

EPA 2: Provide general anaesthesia for an ASA I/II patient having uncomplicated surgery

Key Capabilities

EP_02_04

Managing Emergencies & Simulation

Discuss and rehearse the AAGBI Quick Reference Handbook 'Unknowns'

Demonstrates the routine for dealing with a failed intubation on a manikin as per DAS Guidelines

Demonstrates understanding and capability in Anaesthetic Non-technical Skills

Show details

EP_02_01

Pre-operative preparation

Relates knowledge underpinning EPA 1 (Anaesthetic Pre-operative Assessment) to safe perioperative care planning

Understands the scope of practice as an inexperienced practitioner and seeks help appropriately

Recalls starvation policies for administration of general anaesthesia

Demonstrates working knowledge of commonly used anaesthetic equipment, including the anaesthetic machine, standard monitoring and airway equipment

Demonstrates working knowledge of the commonly used anaesthetic drugs (preparation / dose / effects / side-effects / cautions):

Induction agents
Antiemetics
Muscle relaxants/reversal agents
Sympathomimetics/anticholinergics
Volatile anaesthetic agents
Analgesics

Show details

EP_02_02

Intra-operative Care

Performs airway management including the following techniques:

Mask ventilation
Supraglottic airway insertion
Endotracheal intubation using direct and video laryngoscopy

Performs a Rapid Sequence Induction

Conducts anaesthesia with controlled and spontaneous ventilation

Understands the physiological effects of general anaesthesia

Manages the risks posed to patients when positioning them for surgery, in particular related to pressure areas, peripheral nerves and other delicate structures

Follows infection prevention and control procedures in the operating theatre

Manages tracheal extubation, including common complications occurring during emergence from anaesthesia; eg, laryngeal spasm

Show details

EP_02_03

Post-operative Care

Gives a clear patient handover to recovery team

Manages issues arising in recovery including acute postoperative pain, and the use of rescue opiates in recovery

Show details

Supporting Documents

No supporting documents have been added.

Visible on ESSR

Yes, this activity is visible on the ESSR

Personal reflections

No reflections have been recorded for this form.
