This workshop builds on the knowledge and skills of the *Anaesthetists as Educators: An Introduction* course. It is intended for senior trainees, SAS doctors and consultants, who already have experience of teaching and supervising trainees in the clinical environment.

The workshop looks at the education and assessment of trainee anaesthetists and raises awareness of some of the key concepts associated with education. This highly interactive workshop relies on you bringing your real-life experiences of teaching in the workplace in order to gain the most benefit.

***‘Extremely valuable for anaesthetic clinical educators’***

***‘Excellent course, thoroughly enjoyed’***
