

10 CPD Credits

Slido Code: #Winter19

Winter Symposium 2019 Patient Safety, Health and Wellbeing

Date: Tuesday 10 – Wednesday 11 December 2019

Venue: Royal College of Anaesthetists, London

Clinical Content Lead: Dr Claire Mallinson, Consultant Anaesthetist, Council Member RCoA

In an increasingly pressurised NHS how can anaesthetists take care of their own health and the safety of their patients? The Symposium will be a lively mixture of updates, debates and panel discussions.

Hot Topics will include the new Junior Doctors Contract.

Experts will bring you up to speed with changes in anaesthetic practice and explore what the next five years will bring.

Enjoy the opportunity to ask questions, actively participate in discussions and network with your peers.

Feedback from the 2018 Winter Symposium

"Fantastic value for money given the quality of the speakers" "Excellent overview of evolving ideas in many fields of anaesthesia" "A must for any responsible anaesthetist"

Royal College of Anaesthetists
